

DONALD FOX

State Rep – District 47
Burrillville & Glocester

As the endorsed Republican candidate, I vow to submit legislation to:

1. Promote **private sector** job creation. **JOBS, JOBS, JOBS!!!** Without more jobs, we are all in trouble. RI's unemployment rate is 11.9%!

2. How can we promote job creation? **Eliminate** the RI **sales tax** and **personal income tax!** This is the **only proven way** to attract business to our state and to jumpstart job creation.

3. **Eliminate the government waste** that recently resulted in **higher car taxes** on all of us! Our state government is too big. We must **force** it to spend less by giving it less tax dollars to actually spend.

Will we once again vote in the party that has **dominated RI politics for 75 years?** Or, will Rhode Islanders finally declare that they have had enough of the liberal leadership in Providence **wasting our hard earned incomes?** I am the only **fiscally conservative** choice in the race on November 2. I am the only candidate willing to talk about RI's financial problems and to propose real financial solutions. **With your support on November 2,** I will work to not only create jobs in RI, but to do it in a manner that does **not require the expansion of government** that has shocked us all in the past 18 months.

Thanks,
Don
