

ENDORSEMENTS CONTINUE FOR DONALD FOX

Following last week's endorsement by the RI Tea Party, I am proud to announce that I have received the **endorsements of the Rhode Island Statewide Coalition Business Network (RISC BN) and the National Rifle Association (NRA)** in November's general election. Both organization are non-partisan and have endorsed **Republican, Democrat and Independent** candidates this election season.

The RISC BN endorsement reflects my strong belief that Rhode Island **cannot tax its way out of the economic mess** that we are in. The bad decisions of past politicians have price tags that have now come due. The only economic hope for this generation and generations to come is **through private sector job creation, lower taxes and smaller government.**

The NRA endorsement not only reflects my strong support of the 2nd Amendment of the US Constitution (and the 22nd Section of the Constitution of Rhode Island and Providence Plantations), but **my belief that the Constitution should be vigorously defended** from those who would seek to erode the rights contained therein. Our forefathers **fought for those rights.** We should not let them quietly slip away one by one.

In addition to these endorsements, I am proud to be one of the **first** candidates in RI to sign the **Citizens for an Accountable Legislature's** 10-point plan to make the state legislature **more transparent and accountable.** This plan is exactly what the RI public needs to understand what its legislators are doing and how they are voting. Only with that information can the voter hold his/her State Representative or Senator accountable!

Please remember to vote on November 2. **Your vote can be the difference this year!**
