

Dear Burrillville and Glocester residents of District 47,

My name is Donald Fox and I will be your candidate for *real* change in 2010. I will share more about myself and my ideas for leaner, more efficient government in the months to come, but there are pressing economic issues in front of us and I would like to address my opponent over the course of the next 11 months, as the issues come up.

The recent comments made in the Woonsocket Call by Ed Pacheco with regards to the proposed National Guard training facility near Zambarano Hospital are exactly the type of political doubletalk that we no longer need. It is hard for me to imagine why Mr. Pacheco is not behind this 100% as are most people from Burrillville with whom I have spoken. The facility is a means to create construction jobs, support jobs, teaching jobs and service jobs, ALL in Burrillville and neighboring Glocester. Our merchants and restaurants will all benefit, as will those who work in those establishments. Of course we all have the wonderful hospital, its staff and its patients in mind when considering the proposed facility. But to use the hospital as a means to backpedal while he checks the political winds on this issue is more of the same political behavior that we do not need.

Mr. Pacheco, please immediately stop using political catch phrases when talking about this issue. While you are still our representative, you need to support this training facility and do something for once to create jobs in Burrillville. The work you have done over the past 5 years, such as wasting time in the General Assembly on gimmick Pats license plates, will not create jobs for RI or Burrillville. This facility will create *real* jobs and you should agree with me in supporting it.

My fellow Burrillville and Glocester residents, additional tax increases, sky-high unemployment, and an ever-growing state government are the future of RI, if changes are not made soon. I support the plan to relocate the National Guard facility to Burrillville and I urge my fellow citizens to press Mr. Pacheco to stop talking like a politician and support this training facility *now*.

Donald Fox
